1. Good morning valley viking today we have an exciting show planned.

2. Today We have a movie trailer that knocks it out of the park, a rowdy campus camera, and a story that projects the carlsbad spirit.

1&2. So sit back and relax because vmstv starts right now.

1. Welcome vikings right now we have a story on how music can not only be a good listening tool but also how it can help create everlasting homes

2. Wow! That story makes me want to dance *dance* Now we're going to shimmy over to this campus camera with Noah. Let's take a peek

1. Those animals seem really difficult to fight. Personally I could take on a fire breathing dragon. Speaking of fire let's turn up the heat by going into fired up ceramics

2. It's safe to say that story got me fired up. Now let's check out some fire fits with this campus camera

1.Those are some chill fits now let's surf on over to a story on some chill dudes from here at valley

2.Thank you Viven for that rad story, Yeww! Next up we'll travel a couple miles to Boomers where vmstv students spent their Sunday golfing and hanging out.

1.Boomers look fun! I might have to check it out. You guys should also check out the champions league. Lets hand it over to Gabe for some more information.

2.That was a fantastic magic window.

1.Finally, let's have a sneak peak at what the critics say was a home run of a movie, scoring 100% audience satisfaction,

2.so now grab your popcorn and let's roll the tape.

1&2.*sign off
